A HORSE HOLOCAUST.

THE EIGHTH AVENUE RAILROAD STABLES BURNED.

The Walls Fall and Injure Several Firemen---Nearly Two Hundred Horses Grilled Alive.

NEW YORK, Nov. 25.—The depot and stables of the Eighth Avenue railroad company, on Eighth Avenue between Fifty-first and Fifty-Second streets were discovered on fire this morning. The flames spread so rapidly that in a short time it was beyond control, and soon the structure was doomed. The walls have commenced falling and it is reported that several firemen are injured.

LATER.

When the fire broke out but few employees were about the stables. Heroic efforts were made to rescue the horses, but out of seventy-five on the second floor, but thirty-five were saved. There were about two hundred horses on the third and fourth floors of which only forty were brought out. The sufferings of the many horses saved from the flames scorched or burned were terrible to witness. On Fifth street side the flames spread with lightning like rapidity, owing the fact that immense quantities of hay and feed were stored there. It was here that two gallant but unfortunate firemen were terribly mangled and another party injured. A ladder had been run up the wall and three members of Engine Company No. 1, of Harlem were at work, and without a moment's warning the wall fell in, carrying the ladder and firemen with it.

The fire which broke out in the Eighth Avenue street Railroad Company's stables this morning was finally gotten under control, but not until the building had been entirely destroyed. Four firemen were buried under the falling walls, but only two were dangerously hurt. One hundred horses perished in the flames. The company estimates its total loss at $250,000. Fully covered by insurance.

A Colonization Scheme.

NEW YORK, Nov. 25.—It is announced that the Co-operative Colony Association, among whose members are several clergymen, has determined to establish the first colony in the Cumberland plateau of East Tennessee. The Association expects to purchase a suitable tract before January 1st, and to send a pioneer force to prepare for the coming of the main body in the spring.

The plan is for the Association to buy land and furnish capital for buildings, stock and implements, and deed the property to colonists in separate tracts as fast as the advances made are repaid with a low rate of interest. Experiments in farming will be encouraged, and there will be a reservation for pasturage and fuel, which will be the common property of the colony. A village will be established in the center of the domain, with cooperative store, school, and machine shops.

The Miscegenation Case.

WASHINGTON, Nov 25—Chief Justice Waite yesterday granted a writ of error to the Supreme Court of Appeals of Virginia, in the case of John C. Tinsley, colored, *versus* the commonwealth of Virginia, involving the validity and constitutionality of the statute of that State which prohibits marrieges between white and colored persons. Tinsley, the plaintiff in error, came to the District of Columbia about a year ago and married a white woman. Upon his return to Virginia he was arrested, tried for the offense, found guilty and sentenced to the penitentiary, where, pending this appeal, he remains. Persons interested in the final settlement of the question of the constitutionality of the State law prohibiting the intermarriage of the races, have brought the case to this court for its decision.

African M. E. Conference.

PETERSBURG, Va., Nov. 25.—The annual conference of the African M. E. Zion Church in America, which has been in session here for several days past, adjourned last night to meet in Hertford, N. C., on the third Wednesday in November, 1880. Before the adjournment delegates to the New York, Philadelphia, Baltimore, New England, Allegheny, South Carolina and Tennessee Conferences were elected. Among the appointments made was that of A. Cartwright to Liberia, Africa.

Failed to Appear.

DENVER, Col., Nov. 25.—A Los Pinos dispatch states that the hostiies, who were to have appeared Saturday, had not arrived at Sunday noon. Ouray told the commission that Johnson's brother was shot by Frank Dresser, and told his brother before he died that he was responsible for the entire outbreak and massacre, together with the shootin of the mail carrier and teamster. Ouray seems disappointed at the answer of Schurz to his proposal.

Bidding for Trade.

ST. LOUIS, Nov. 24.—Peter Papin, of the Port Royal harbor improvement and steamship company, of Port Royal, S. C., addressed a meeting of merchants this afternoon on the subject of an organized movement to send western produce to Port Royal, for exportation, instead of to more northern ports. He made a lengthy statement of the advantages of this scheme to western shippers by shortening railroad transportation to the seaboard, its superiority of harbor, its entire freedom from ice, cheapness of handling freight, etc., and, apparently, made a strong and favorable impression on those present. The board of directors of the merchants' exchange will consider the subject to-morrow.

Eugenie's Last Sorrow.

MADRID, Nov. 23.—When the ex-Empress Eugenie arrived here yesterday, her mother, the Countess de Montijo, was already dead. King Alfonso, who was awaiting Eugenie at the station, communicated the news of her mother's death. Eugenie wished to go to her mother's residence, but was prevailed upon to go to the Alba Palace, where many thousands of visitors called and inscribed their names.

In Session.

COLUMBIA, S. C. Nov, 25.—The General Assembly convened to-day. The impression is that the session will be a short one.

Miscellaneous Foreign News.

LONDON, Nov. 24.—A dispatch from Paris to the *Times* says that Herr Saul, editor of the *Frankfurter Zeitung*, has been sentenced to one month's imprisonment for reprinting an article insulting the Prussian judges.

Lynch Law.

MACON, Ga. Nov. 25.—Henry Walker, colored, a well known burglar in Houston county, was taken from jail at Fort Valley last night by a band of unknown men and hanged to a tree near that place, where his body was discovered this morning. The best citizens express strong disapproval of the act. It is thought by some that Walker was hanged by his confederates in crime, in order that he might not implicate them.

Memphis to be Cleansed.

MEMPHIS, Nov. 24.—The Sanitary Commission of the National Board of Health, the city authorities and the commission appointed by the citizens' mass meeting on sanitation held a conference here at noon to-day. The meeting was called for the general interchange of ideas with regard to sanitary matters. Davis H. Hadden, representing the citizens' committee, pledged strict compliance on the part of the people with all suggestions made by the committee for the improvement of the condition of the city. Charles Herman, of Louisville, who made a survey of the city several years ago, will arrive tomorrow to aid in the new survey that is to be made.

LATE NEWS NOTES.

The weather has been so favorable in Oglethorpe county, Ga., that the third crop of figs for 1879 is nearly ripe.

Turkey, being unable to support a legation at Washington, will recall very soon her present representatives.

Old Rhoda, a mare forty-three years old, owned by E. L. Thompson, of Connecticut, died recently, after having done good service up to the very day of her death.

San Domingo advices are to the 8th inst. An encounter had occurred between the forces of President Guillermo and the revolutionist at San Pedro. Guillermo was dislodged from the position he held and compelled to retreat, in some disorder, to the capital. The revolutionists advanced and were besieging the capital.

Dr. I. I. Hayes, in a lecture at Newport, R. I., last Thursday night, said: "I believe the Bennett expedition will reach the pole through a substantially open sea, and there it will be a matter of choice or circumstance whether they return by the way they came or cross over the Arctic ocean and emerge by the way of Spitzbergen sea or through Smith's Sound.

Near Eureka, Nev., Friday, Robert Brown and two companions attacked John Chamberlain in a dispute about the possession of a wood ranche. Chamberlain's thigh was broken by a rifle shot, but he maintained the fight on his knees with a six-shooter and two shot guns, killing Brown, and at the same moment falling dead himself.

At Detroit, Michigan, on Saturday, the attorney general of the State began a suit against the Lake Shore and Michigan Southern Railroad Company for $1,000,000 back taxes and interest claimed to be due from that corporation and the Michigan Southern and Northern Indiana at the time of its consolidation with the defendant.

Joseph Udell, owner of the celebrated blind pacer Sleepy Tom (record 2:12¼), has sent a challenge to the owner of St. Julien, which recently obtained a record in California of 2:12¾, to make a match between the two great flyers, to take place this fall or early next season. Tom's owner feels confident that he can beat any trotter or pacer in the world.

The Mississippi river commission left St. Louis Saturday for New Orleans, inspecting the levees and channels *en route*. At Memphis, Vicksburg, Natchez and other large places on the river they will invite river pilots, local engineers and others to give their views on the subject of river improvements. They will probably reach New Orleans about December 6th, and will then go down to the passes.

Army officers at Washington are not sanguine of success on the part of the Ute commission in its efforts to ascertain the murderers of Agent Meeker and the instigators of the attack on Thornburgh's command. It is believed really now that the Indians are simply seeking to gain time in the hope that military operations will be prevented by winter, and that the guilty ones may scatter.

Paymaster Stanton, at Rawlins, Wyoming, from White River agency, reports everything quiet and no signs of Indians in the neighborhood of the agency. General Merritt left White River Saturday for Rawlins with the Third cavalry and company D of the Fifth cavalry. Three companies of infantry and four companies of cavalry, Lieutenant-Colonel Gilbert, will remain at White River this winter.

General Grant and the Nicaragua Canal.

WASHINGTON, Nov. 23.—Admiral Ammen has received another letter from General Grant in reference to the Nicaraguan canal. General Grant continues to show the greatest interest in the scheme, and mentions that he has received communications on the subject from parties representing the French capitalists. General Grant will have an interview in Philadelphia a few days before he leaves for Mexico and Cuba, with the representatives of both French and American capitalists, which, it is expected, will have an important bearing on the future prospects of the work. General Grant, as has been stated, expects to sail for Cuba and Mexico on the 20th of December. His visit, he thinks, will occupy about three months. From Mexico he expects to return to the United States through Texas, and will take all the principal cities of the South in his tour through that section

An Interesting and Important Case.

Richmond Dispatch.

As counsel for the plaintiff in error, Mr. Wm. L. Royall has obtained a writ of error from the Supreme Court of the United States to the Supreme Court of Appeals of Virginia in the case in which the Virginia Court of Appeals decided that a marriage between a negro man and a white woman was void, and that the parties are liable to prosecution and punishment for such marriage. Mr. Royall contends that the Virginia law is contrary to the constitution of the United States, and is therefore void. It is more than probable that the Supreme Court will order the case to be heard at an early day, and thus this vexed question will be finally put at rest.

An Aged Person Dead.

Wilmington Review.

Mrs. Abiathar Strickland, the oldest white person in Duplin county, died at Magnolia on Saturday, the 22d inst., aged about sixty-three years. Her husband, during his life time, owned nearly all the land upon which the town of Magnolia is built, and when it was first incorporated the name of Stricklandville, in honor of his name, was given it, but it was subsequently changed to the name which it now bears.

Gone for Two Years.

Asheville Journal.

At this term of Polk court, Tillman McEntire was sentenced to two years imprisonment in the Penitentiary for manslaughter. It will be remembered that he is the man, who, about a year ago, killed his son by striking him in the head with a handspike, breaking his neck.

THE IRISH AGITATION.

THE AMBIGUOUS ADVICE OF THE AGITATORS.

No Abatement in the Excitement in the West of Ireland---Mr. Parnell Advises Perseverance.

LONDON, Nov. 25.—A dispatch from Dublin to the *Times* says: "While the Irish agitators tell the public that they are engaged in a legal and constitutional agitation and ostensibly advises the people to keep within the limits of the law, the country abounds with evidence that a different interpretation has been put upon their language. Threatening notices and acts of violence are practical comments upon their words. These are evil omens for the winter."

The press association says that the excitement throughout the west of Ireland shows no sign of abatement. Large meetings are being held in all populous places in the counties of Mayo and Sligo. Mr. Parnell in addressing a large meeting last night in Sligo, asked the people to persevere in the agitation, and remember his advice to keep a firm grip on the land. Great crowds assembled in the streets of Sligo to-day.

The examination of Davitt is proceeding. There is some fear of a riot, as the municipal elections are being held and the Mayor is very unpopular. One hundred and twenty soldiers are under arms in the barracks, and one hundred additional police are in readiness. All the western districts are being strongly garrisoned.

LONDON, Nov. 25.—A great demonstration took place last night at Dundee, Scotland, at which three thousand persons were present. The resolutions condemned the arrest of the Sligo prisoners.

FORSYTHE.

WINSTON, Nov. 24.—The weather has moderated some, but is still cold, and promises to become colder. Trade has been good, and the number of persons present during court, gave our streets a lively appearance truly.

A pugilistic exercise in Winkler restaurant Saturday night gives the Mayor business this morning. Policeman Wooters arrested by advices of Mr. Jacobis, a Wilmington hardware man, a youth named Nathan Green for larceny. Quite a number of knives and other articles were found on his person. A telegram was sent to Mr. Jacobis, but at last account, no reply had been received. It is reported on our streets by a mail carrier from Mt. Airy, that Frank Cloud, formerly a policeman here, was shot and killed Saturday evening by a lad of seventeen. Report says that Mr. Cloud had been teasing the boy who had previously been greatly irritated, and when Mr. C. was in the act of leaving the room, the boy seized a double barrel shot gun found near, and discharged both loads into Mr. C.'s head, killing him instantly. This occured at a store between Mt. Airy and Dalton's.

Rev. J. F. Heitman, of Chapel Hill, formerly pastor of the M. E Church here, is on a visit to our town with his newly married bride, whom he a few days ago led to the altar in Chapel Hill. He is looking extremely well, and meets with many congratulations among his many friends here.

Hinshaw & Bros., of this city have a hall which they built for the use of the colored people. They charged $5.00 per night for its use for a "straight" dance, and $2.50 for a "dance for the church." It was used one night only for a "stag" set-to, and after that every dance has been for the benefit (?) of the church. A novel way to raise funds for religious purposes.

As many as forty-eight darkies have been seen tripping the light fantastic in one "break down," while the massive brick walls of the building roared like a circular saw. It proves to be a useful building, as they use it as a Masonic, Military and Moravian Missionary Hall. It is the best paying investment Messrs. H. & Bro. have ever made.

HALIFAX.

WELDON, Nov. 24.—The burial of E. M. Hicks, the victim of Saturday's homicide, took place yesterday afternoon. The deceased was an old and well known citizen, and leaves a wife and eight children. Merritt's counsel waived an examination and he was committed to jail. Messrs. Day & Zollicoffer, Mullen & Moore, and M. W. Ransom, Jr., are employed for the defense, and Gen'l T. J. Persons to aid the prosecution. Merritt is a young man of about twenty years. He lived here with his mother. Larkin was shot in both thumbs and two fingers, and may lose a joint or two. C.

GUILFORD.

GREENSBORO, Nov. 14.—The weather has been freezing cold since last Thursday, and trade in consequence has not been quite so lively.

And Colonel Thad Coleman (whose family are here) is the happy man and it's a boy. He is chief engineer of the Western N. C. R. R. and married one of our ladies.

There is to be another marriage in the M. E. church next week.

Special court, Judge McKoy presiding, begins two weeks from to-day.

Politics have been at such a low ebb for months I can't get an item.

Protracted meeting at the M. E. church most of last, and this week.

It has been the dryest fall on record so far as I can learn, preventing much wheat being sown in due time.

Next Thursday (Thanksgiving) is to be observed here by religious services in the Methodist, Baptist and Presbyterian churches, and collections had for the orphans, and we hope they will be large. I know of one of Guilford's orphans who was educated there till his time was out, and by good behavior and deportment there and since has gotten a position, that in time to come will be of vast benefit to him.

A very sad accident befel one of our citizens last Friday. A man by the name of Aiken, living seven miles from town, was in town, and had started home with a man who makes and sells ardent spirits, and next day he was found dead—he had frozen to death. Thus does whisky carry off its victims, and I ask, in all candor, if the man who sold him that last drink is not responsible for that man's death.

Rev. Mr. Bruton, in his remarks before the Christian association yesterday said, that the day before he had seen the first man drunk in Greensboro since he had been pastor of the Methodist church here (12 months), though, he said, a friend told him that there had been a good deal of drinking here the past week.

But, allow me to add, not mainly by our young men (yet they are not all clear), and 'tis said the liquor was not bought here, and the prohibitionists of our community would like to know it was not; for, be you well assured, there are few to be seen drunk here nowadays to what there was before the prohibitory laws closed the grog shops, be the laws evaded, as they are to some extent.

Dr. Bell, one of our best physicians, is now dangerously ill here.

WAKE.

WAKE FOREST, Nov. 25.—Our village is now very lively. The weather is right cool, yet pleasant. The new chapel building is progressing rapidly. Several new buildings are going up now, and many are contemplating coming here—some having purchased lots already. Upon the whole, Wake Forest has before it many bright prospects. Our beloved president, Dr. Pritchard, is conducting a meeting here now which promises to be very interesting. Four have already professed faith in Christ, and many others are inquiring. He delivers the word with eloquence and force, yet in its simplicity and truth. May God help him and all our inhabitants at this time especially.

Dr. Pritchard is introducing some excellent changes in the course of study, and adding many good things otherwise. M. A. J.

About Squids.

Mr. L. W. Thomas, of Portsmouth, Va., has presented to the Maryland Academy of Sciences a very fine specimen of squid. It was caught in the western branch of Elizabeth river, Va. It is very unusual for this species of mollusks to occur so far south, being decidedly a northern species. Squids form the principal food for many fish, and almost exclusively that of the cod-fish. For this reason it is eagerly sought for, as it forms the best kind of bait for this fish. It is not so well known, however, that the squid itself feeds upon fish. In the report of the United States commissioner of fish and fisheries, Professor Spencer F. Baird, speaking of these fish, says:

"These squids were observed among the wharves in large numbers engaged in capturing and devouring the young mackerel which were swimming about in 'schools,' and at that time were about four to five inches long. In attacking the mackerel they would suddenly turn obliquely to the right or left and seize a fish, which was almost instantly killed by a bite on the back of the neck with the sharp beaks. The bite was always made in the same place, cutting out a triangular piece of flesh, and was deep enough to penetrate to the spinal cord. The attacks were not always successful, and sometimes repeated a dozen times before one of these active and wary fishes could be caught. Sometimes, after making several unsuccessful attempts, one of the squids would suddenly drop to the bottom, and resting upon the sand, would change its color to that of the sand so perfectly as to be almost invisible. In this way it would wait until the fishes came back, and when they were swimming close to or over the ambuscade, the squid, by a sudden dart, would be pretty sure to secure a fish." The specimen presented is a small male, its body measures 4½ inches, its tentacular arms, 4 inches. The last third portion of these arms bear suckers, which are arranged in about four rows.

The Perils of Emigration.

Wilmington Star.

Eighteen of the unfortunate colored emigrants from South Carolina, who left Charleston for Liberia in the spring of last year, on the ship Azor, have landed at New York. The *Herald* says:

"The returning party included three families and several single adults. Their friends in this country sent them money with which to pay their passage back to their old homes. They say there is not one of the Azor's party that would not gladly come back if they could raise funds for the journey. A more discontented, miserable set of people can hardly be imagined than those unfortunates, who have found more graves than homes in the young colored Republic."

Of the three hundred and seventy victims who sailed in the Azor some thirty have returned. The *Herald* says that there are now only some sixty-five living. In other words, of the three hundred and seventy who left Charleston only some ninety-five are now living. A tale of horror. In some twenty months nearly three hundred have died.

Confederate Bishops.

Philadelphia Times.

The Confederate brigadier is coming into prominence in the Church as well as in the State. At least half a dozen of the younger bishops of the Protestant Episcopal Church were officers in the Confederate army, who entered the ministry after the war, and whose military experience doubtless laid the foundations of the character and capacity that are recognized in their elevation to the episcopate. It is not only the Southern dioceses that show a predilection for ex-soldiers. Bishop Quintard, of Tennessee, Bishop Dudley, of Kentucky, Bishop Peterkin, of West Virginia, Bishop Harris, of Michigan, and two or three others, including the Bishop elect of Louisiana, Dr. Galliher, all served in the Confederate army, and so did at least three of the missionary bishops appointed by the House of Bishops—Elliott, of Western Texas, Wingfield, of Northern California, and Penick, of Cape Palmas. We believe that no instance of this kind has occurred in the North, which is unfortunate; for there is no doubt that all these men will make better bishops for having been good soldiers. The fact is that all the young men in the South, fifteen to twenty years ago, who were good for anything were in the army, and in choosing a man for almost any position, in Church or State, an ex-soldier is pretty sure to turn up.

Two More Suits of Stripes.

Asheville Journal.

On Wednesday evening; at Mud creek trestle, near Hendersonville, about dark, Henry Newland, of this place, and another colored boy, were caught in the act of tearing up the railroad track. It was just before the train had arrived. They were prompted to the commission of this crime by a revengeful spirit against the conductor who found them aboard the bind platform the day before, trying to beat their way to Spartanburg. They are lodged in Henderson jail.

In spite of all the new remedies which are constantly introduced to the public Dr. Bull's Cough Syrup still takes the lead for the cure of coughs, colds, etc.

Why Will You

Allow a cold to advance in your system and thus encourage more serious maladies, such as Pneumonia, Hemorrhages and Lung troubles when an immediate relief can be so readily attained. *Boschee's German Syrup* has gained the largest sale in the world for the cure of Cough, Colds and the severest Lung Diseases. It is Dr. Boschee's famous German prescription, and is prepared with the greatest care, and no fear need be entertained in administering it to the youngest child, as per directions. The sale of this medicine is unprecedented. Since first introduced there has been a constant increasing demand and without a single report of a failure to do its work in any case. Ask your Druggist as to the truth of these remarks. Large size 75 cents. Try it and be convinced.

THE WAR DEPARTMENT

SYNOPSIS OF THE SECRETARY'S ANNUAL REPORT.

The Organization of the Department and the Army---The Indian Troubles---Gambling in the Army.

The Secretary of War has submitted the annual report of the operations of his department to the President, from which the following synopsis is taken:

The report of the General of the Army shows the aggregate, as exhibited in the latest returns, to be 2,187 officers, 24,262 men and 388 officers retired. A portion of this force, however, being necessarily employed in detached or special service, constitutes no part of the force available for actual operations in the field. The signal corps, the ordnance sergeants, the commissary sergeants, the West Point detachment, the prison guard at Fort Leavenworth, and the recruiting detachments amount in the aggregate to 3,463 enlisted men, and are employed in the performance of important duties connected with the military establishment, but not in the field. He joins with the General of the Army in recommending that the effective force of the line of the army be raised to 25,000 men, exclusive of these detachments. He had occasion in previous reports to express the opinion that a due regard for the safety of settlers upon the frontiers, the guarding and preservation of the vast and valuable military stores and property, the proper management and control of

THE INDIAN TRIBES,

and the defense of the extensive border lines, would justify, if they do not imperatively require, a much greater increase of the effective force of the army than is suggested. Congress should not hesitate to authorize the enlistment of the full number of 25,000 men for the line of the army, exclusive of the number required for detached duty. It is undeniable that most, if not all the disasters attending Indian hostilities are the result of inadequacy of force on the part of United States. The wily Indian seldom if ever, strikes a powerful foe. His policy is to take advantage of the weak points on the frontier to inflict heavy losses. The records of the Department show that since the close of the war of the rebellion fifty-five officers of the army have been killed in Indian warfare, and a corresponding number wounded, besides a proportionate number of men killed and wounded. Among the list of killed will be found the names of such valuable officers as Canby, Custer and Thornburgh.

The actual expenditure of the War Department for the fiscal year ending June 30, 1879, were $42,653,723.62.

The appropriations available for the service of the fiscal year ending June 30, 1878, aggregated $45,076,702.95; those for 1879 were $53,016,040.96, and those for the current fiscal year amounted to $46,269,821,94.

The estimates for the service of the fiscal year ending June 30, 1881, are $40,380,428.93, to which amount they have been reduced from $54,306,643.14, for which they were originally submitted to him.

The civil establishment includes salaries and contingent expenses of the permanent department offices, and these estimates amount to $1,139,460.

He suggests that the clerical force allowed to this office is not sufficient to satisfactorily dispatch current business, and that some of the chiefs of bureaus report that the force estimated for by them on the basis of appropriations is not adequate to the clerical needs of their offices.

The military establishment is estimated for on the basis of 25,450 enlisted men, the Signal Corps being by law allowed 450 men, not to be included in the 25,000. Under this head the estimates for the current fiscal year were $29,335,727.33; the appropriations to meet the same were $26,978,847.33, and the present estimates are for $29,319,794.78. The principal differences between the estimates and the appropriations are on account of the item for pay, etc.

FOR PUBLIC WORKS.

The estimates for public works as reduced are $7,557,034.42, which amount is $396,043.34 less than the estimates for 1879, $113,946.88 less than those for 1880, and $3,237,460.19 less than the appropriations for 1880, which were $10,794,494.61.

The amounts appropriated for "fortifications and other works of defense" during the last five years have been insufficient to preserve all such Government property from waste. Under this title the estimates for 1880, which were $3,188,400, were reduced by me to $1,000,000, and were favorably considered in Congressional appropriations for $150,000; and the present estimates, rendered in detail, for $4,028,500, have been reduced in the aggregate to $1,000,000, which amount could be wisely and properly applied to the preservation and care of these works.

The estimates for rivers and harbors rendered by items for $14,326,650 have been reduced to $5,015,000, which was the total of the amount appropriated for the fiscal year 1877, and which seems to have been sufficient for the promotion of the general commerce of the country during that time.

THE MISCELLANEOUS ESTIMATES

are $2,344,139.73, of which amount about one fourth appertains annually to the departmental collection and diffusion of valuable official *data*, such as the observation and report of storms through the Signal Service, the compilation and publication of official records of the war of the rebellion and the like, and the remaining portion (which is over $1,500,000), is made up of items wholly relative to certain moral obligations of the Government, such as the support of the National Home for Disabled Volunteer Soldiers, the furnishing of artificial limbs and other appliances to disabled soldiers and the care of National Cemeteries.

The aggregate of the estimates for the next fiscal year is $2,273,294.69 less than the amount of actual expenditures of 1879, $5,889,393.01 less than the appropriations available for the service of the fiscal year 1880, and is $7,289.40 less than the estimates for 1880, which were for a "less sum of money than any annual estimates rendered to Congress from this Department for a period of at least eleven years."

The War Department agent for collecting such Confederate records as may be placed, by gift or load, at the disposal of the Government has been very successful.

The Southern Historical Society has placed its collection at the service of the Department, and valuable documents have been furnished by Generals Johnston, Pemberton, Wheeler, Jones, Ruggles and others.

Attention is invited to the fact that as yet no provision has been made for publishing any of the records. An appropriation for the composition, stereotyping and printing of proof copies of the records for 1861 is recommended.

He recommends that the legislation heretofore initiated in the Senate for making gambling in the army a punishable offense be renewed, and the bill heretofore proposed for the purpose or some similar provision be enacted by Congress.

THE MILITARY CEMETERIES.

The military cemeteries, eighty in number and are in good order and improve in beauty as cultivation improves. He caused the materials of the ancient portico of the old War Department, on its demolition to make room for the new building, to be transferred to the Arlington cemetery, where the old columns and entablature have been used in constructing two handsome and appropriate entrances to the cemetery. It is suggested by the Quarter-Master-General that the cemetery affords ample space, without encroaching on the ground occupied by the soldiers of the war, to be used as a National Government cemetery for the interment of members of Congress and and officers of all services of the United States who may die at the Capital, or whose friends may desire for them such a place of sepulture. This subject is worthy of consideration.

The total number of deaths from all causes reported among the white troops was 206.12 per 1,000 of mean strength. Of these 162, or 7 per 1,000 of strength, died of disease, and 104, or 5 per 1,000 of strength, of wounds, accidents and injuries.

It appears that the enlargement and improvement of the cadet barracks at West Point are demanded by considerations both of health and comfort, and it is recommended also an appropriation of $10,000 for the erection of a cottage for the use of the Board of Visitors and other official visitors to the academy.

Federal Court.

The United States District Court convened yesterday morning at 11 o'clock, the Hon. George W. Brooks presiding. The jurors were then drawn and were duly charged in regard to their duties toward violations of the revenue laws. The following named gentlemen form the grand jury:

J D Hayes, Foreman; H W House, Joseph P. Prairie, H H Ennis, J Z Bennett, Troy Poole, Charles Cooper, J R Whitehead, W P Wetherell, C G Latta, John W Wiggins, C C Clawson, F C Christophers, Allen Terrell, colored, George H Williams, Frank Stronach, C B Dudley, Allen Lane, colored, A B Flemming, colored.

U. S. vs. Mark Wimberly, illict distilling. Verdict guilty. Recognized in $1,000 bonds for appearance at next term of court.

U. S. vs. Joseph Mills, illicit distilling. Defendant submits.

U. S. vs. Anderson N. Bradley, unstamped tobacco. Defendant submits.

The "Midgets."

The number of visitors at Tucker Hall yesterday afternoon and evening was largely increased, and every one seemed pleased with the entertainment. Regarding General Mite the following authentic details may prove interesting: General Mite when born weighed only two and a half pounds, since which time he has not grown a particle except in bulk. He is now fifteen years old and weighs only nine pounds. The other children of the family are of the ordinary size. At a medical examination in New York the General and Major Atom were pronounced perfect in form and intellect. Their daily food is precisely like that of other people. They eat anything and everything. They take their three meals a day with the rest of the family at the Yarboro, and Dr. Blacknall fears a famine in the land. To-morrow (Thanksgiving) they will give three exhibitions, in the morning from 10 till 12; in the afternoon and in the evening. The following from the Baltimore *American* shows how they were regarded in that city: "The Midgets are still the wonder of the whole city. Thousands upon thousands of people have flocked to see them, and many have returned a second and even a third time to satisfy themselves that there was no illusion in their puppet like movements and diminutive proportions. There never has been so successful an entertainment in Baltimore, or one that kept up the public curiosity to its highest tension for so long a time."

The Catholic Fair.

Last evening there was a goodly assemblage at Metropolitan Hall, where the Catholic Fair and Festival is being held. Contributions are being steadily received, and although comparatively few had been received up to last night still there were enough to make a fine display and give an earnest of what is to follow. Handsome fancy work graced the tables on side, and on the other was a fine display of rich cake and confectionery, with still further appliances to feed the hungry multitude with oysters and other toothsome delicacies.

At one table is a ballot-box for the depositing of ballots for the most popular gentleman in the city, Messrs. Geo. H. Snow, Basil C. Manly, and Eugene Grissom, being the favorites. The lucky gentleman, as a certificate of his popularity, will receive a gold-headed cane. Besides this is an elegant standish with the accompanying gold pen to be presented to the most popular bank cashier in the city—this also to be decided by ballot.

A handsome picture of the Virgin will be raffled off during the Fair. Take it all in all the members of Father White's congregation have made a most excellent showing.

Runaway Accident.

Yesterday afternoon Monroe Vass (col.), driver of A. W. Frapps' delivery wagon, was at the depot to load up a barrel of whisky. While getting the barrel in the wagon the horse became restive on the approach of an incoming train and he took the animal by the head. The screech of the whistle accelerated movements somewhat and the horse started off with Vass hanging to him, and before help reached him he was thrown to the ground, receiving several severe cuts about the head. The horse was stopped without further damage, and the wounded man taken to the store, where his injuries, which were not serious, were attended to.

Each of Warner's Safe Remedies—the Safe Kidney and Liver Cure, Safe Pills, Safe Nervine, and Safe Bitters, is asserted to be the best of its class, and the intention is to keep it so. If any medical expert can add an ingredient which will improve any one of them, he will be paid a high price for the improvement.

What is Hay Fever?

This fashionable disorder is supposed to be an affection of the mucous membrane of the nose. They say that Henry's Carbolic salve will cure it if used freely and persistently. Give it a trial. Beware of counterfeits.

A TALK WITH TOOMBS.

THE EMPIRE, AND I AM READY FOR IT.

An Opinion of Grant and Bayard and the Presidency---The South will Take Grant.

Correspondence of the Philadelphia Times.

ATLANTA, Ga., Nov. 30.—The dispatch sent by General Toombs to the editor of the Chicago *News*, in which the General expressed a desire to tackle the Union single-handed and complete his work which was interrupted at Appomattox, is the topic of comment through the South. The disposition is to laugh at the doughty General, though there are some persons who denounce his expression in round terms. His high character, his superb intellect, his infinite contempt for the incidents of office save him from a severe scoring in the presses. As for himself, he stoutly adheres to his sentiment and says that he is too old to learn the habit of crawling on his belly and whispering lies. On last Saturday night he visited the newspaper offices looking for a reporter who had asserted that he was blind drunk when he sent the dispatch. He carried a knife with which he had announced himself ready and anxious to slit off the ears of the offending journalist.

No sane man will believe that General Toombs represents any part of the Southern people. He does not pretend to do so. He has no political ambition and is not a candidate for Governor, as has been announced. If he were he would trim to the wind. He is quite an active public man, however. Through his influence the late Constitutional Convention was called, and he became one of its leading members and drew his personal check for the expenses of the session. His main object was to bring the railroads under the hands of the State's tax-gatherers, and after a bitter fight he has succeeded. His course in this matter has added probably $100,000 per annum to the income of the State.

I met the General the other day and asked him who would be the next President.

"Grant," he replied, promptly. "He will be the next President and last President."

"After Grant—what?"

"The Empire, by G—d! I am ready for it. It is part of the inevitable. When the North by the fourteenth and fifteenth amendments injected 500,000 savages into the belly of the Constitution they made popular government impossible. Grant is a man of power. Alec Stephens thinks he is the greatest man, probably, in public life to-day. I like him well enough myself. A d—d sight better than I do any of his crowd. He has to a pre-eminent degree what will command the irresolution of these times. And that is a dauntless courage."

"Is there no Democrat who has the same quality?"

"None—unless it is Bayard. He comes of the purest and bravest strain of blood that ever flowed through American veins. If he has the nerve of the old Bayard who turned his back on Burr and his party because he said Burr had led the party where no cleanhanded gentleman could follow it, he will do. I suspect the blood is not losing its temper. Tom Bayard's father gave us a hint of the old spirit when he left the Senate in 1860 because he would not swear that he did not sympathize with the South. But if Grant wants the Presidency, and I think he does, it will require a man that can meet the lightning open-eyed to stay his steps to the White House. Once in there, you might as well try to tear the lightning from its seat in the clouds as to get him out. But let it come. Grant and the Empire. That is the prophecy of an unrepentant rebel!"

Grand Lodge of North Carolina, F. and A. M.

OFFICE OF GRAND SECRETARY,
RALEIGH, Nov. 6, 1879.

The Grand Lodge of Free and Accepted Masons of North Carolina will commence its 93d Annual Communication at its hall in this city on Tuesday, 2d of December next, at 7:30 o'clock P. M.

Officers and representatives can procure return tickets, on application, over the railroads, etc., at the rates herein mentioned, viz:

Six cents per mile for the round trip over the following:

Atlantic and North Carolina Railroad; Seaboard and Roanoke; Raleigh and Gaston; Raleigh and Augusta Air-Line; Wilmington and Weldon; Wilmington, Columbia and Augusta; Richmond and Danville (North Carolina Division); North Western North Carolina, Piedmont, and Charlotte, Columbia and Augusta.

Six and one-fourth cents over the Atlantic, Tennessee and Ohio Railroad.

For one first class fare over the following: Western North Carolina Railroad; Cape Fear and Yadkin Valley (from Fayetteville); Carolina Central; Atlanta and Charlotte Air-Line; and Dismal Swamp Canal.

It is especially suggested that return tickets over all the routes mentioned are necessary to prevent the payment of full fare, except the Atlanta and Charlotte Air-Line, over which the Grand Secretary's certificate will be issued to return.

D. W. BAIN,
td. Grand Secretary.

Got Out Doors.

The close confinement of all factory work, gives the operators pallid faces, poor appetite, languid, miserable feelings, poor blood, inactive liver, kidney and urinary troubles, and all the physicians and medicines in the world cannot help them unless they get out of doors or use Hop Bitters, the purest and best remedy, especially for such cases, having abundance of health, sunshine and rosy cheeks in them. They cost but a trifle. See another column.

Political Issues.

Kearney's advice to all parties is to "pool their issues." We think a good deal as he does, that we should bury the dead issues of the past. As a healing compound for all issues, sores, wounds &c., there is nothing equal to Henry's Carbolic Salve. Beware of counterfeits.

Quite as Sensitive.

The sense of smell of the American People is quite as sensitive as that of any country—and certainly, when this faculty is tutored, perfumes may be made in America as excellent as those that come from abroad. Judges of fine odors credit Dr. Price with nice taste in the compounding of his unique perfumes.

Overcoats for Everybody.

If you need an overcoat you will find our stock large to select from. We carry from the cheapest to the best. Men's ranging all along from $2.50, $3.50, $4.00, $6.00, $7.50 up. Boy's from $3.50 up. An inspection will save money.

DAILY NEWS

GEO. C. JORDAN, Editor and Prop'r.

WEDNESDAY, NOVEMBER 26, 1879.

COMMISSIONER PAINE, of the Patent Office, has decided that fees heretofore paid in trade mark cases cannot be refunded without further legislation by Congress.

THE Mormons, it is stated, are leaving the Southern States for Colorado. They agree to conform to the laws of tha State, which prohibit polygamy. The unprovoked murder of Elder Standing in Georgia last summar causes them to feel apprehensive,and they believe that in a new field they can do much better.

CHICAGO is making efforts to gobble both National conventions next year. The exposition managers propose to to fit up that building with seats for twenty-nine thousand persons,and offer it free. The railroads generally offer half fare rates and other inducements. It is stated that one hundred and thirty hotels, capable of accommodating more guests than the same number in any other city, are within a mile of the building.

IF the reports from the West be true the railroad freight traffic at the present time is unprecedented. The Chicago *Times* says that inquiries among the officials of railroads centering in that city elicit reports of an increase of from 25 to 40 per cent. over the corresponding periods in former years. Already more lumber has been freighted to that city than during any preceding year, and the season will not be closed for some weeks yet.

ACCORDING to a Washington dispatch to the New York *Tribune*, a delegation of Virginia Republicans waited on President Hayes Friday last, and met with a sharp rebuke from him. He lectured them severely for having aided the repudiators in the recent election. He urged them to adopt a new policy in Virginia, to co-operate with the debt-payers, and to declare that the Republicans who acted with the readjusters should cease to be considered as in good party standing.

TO-DAY we publish a synopsis of the annual report of the Secretary of War. It is a lengthy document, but the salient points are presented. It shows the aggregate of the Army to be 26,837, and the Secretary calls for 4,201 additional to make the line 25,000 strong, independent of those on detached duty,such as signal service, etc. The expenditures for the fiscal year ending June 30, 1879, were $42,653,723.62. The Secretary wants more men, more money—in fact, all he can get; and he also desires to stop gambling in the army,which latter job may be considered the hardest of the lot.

THE Indianapolis *Sentinel*, Mr. Hendrick's organ, insists that unless he is nominated for the first place on the Democratic ticket next year, Indiana may be lost to that party.

If the *Sentinel* reports Mr. Hendricks rightly, we feel, great as the loss will be, that the Democratic party will have to let the gentleman slide. When a man has received the indorsement of the party for the second highest place in the National administration, and then resorts to threats to compel his nomination for the first place, he is doing neither the party or himself any credit. The party cannot be bull-dozed —the New York election settled that. And as for himself, his course latterly has not been such as to command unqualified admiration. If he cannot give his heart to the work and carry Indiana for the Democracy for the sake of old political associations, Illinois will, in the person of ex-Governor Palmer, undoubtedly be able so to do. Anyway we can try.

THE Committee of Elections of the House of Representatives has eleven cases of contest on its docket to be heard and determined at the next session of Congress, as follows: Boynton, Democrat, vs. Loring, Republican, sixth Massachusetts district; Curtin, Democrat, vs. Yocum, Republican, twentieth Pennsylvania; Yeates, Democrat, vs. Martin, Republican, first North Carolina; O'Hara, Republican, vs. Kitchen, Democrat, second North Carolina; Mackey, Republican, vs. O'Connor, Democrat, second South Carolina; Haralson, colored, Republican. vs. Shelley, Democrat, fourth Alabama; Herbert, National, and Merchant, Republican, vs. Acklen, Democrat, third Louisiana; Bradley, National, vs. Slemons, Democrat, second Arkansas; Donnelly, National, vs. Washburn, Democrat, third Minnesota, and Hines, Republican, vs. Whitaker, Democrat, Oregon.

THE EMPIRE.

Grant will be the next President and the last President. After Grant the Empire! and I am ready for it!—*General Robert Toombs.*

Several years ago when the New York *Herald*, referring to General Grant's presumed wish to serve a third term in the White House, raised the cry of Cæsarism, that journal was flouted by the united press of the country. Jibes and jokes were showered down upon it without mercy. All of its sensational stories were gathered together, and this, which was considered the greatest attempt in the sensational line, was placed in the chief standing in the menagerie. Perhaps the author, since passed away, was endowed with singular prescience; perhaps he "builded better than he knew;" who can tell?

But time rolled on and another was the choice of the nominating convention. The country was not ready for a third term. The General made the tour of the world. A newspaper correspondent accompanied him and kept his countrymen posted on all his movements. Glowing accounts of his travels; of his regal receptions wherever he stopped; of the honors paid to him in the Old World, civilized and barbaric, by crowned heads; of his greeting by the democratic masses in foreign republics and limited monarchies; all were faithfully returned to the land of his birth, and were given out in this realm of newspapers to his countrymen either in complete or abridged form. The faults of his administration, in the Northern mind, were completely covered with the luster of his generalship. For it is an axiom supported by the teachings of human nature that kingly glories are obscured by the renown of the successful Captain.

During all this time it was the belief of many that friends and supporters, urged by venal views, were bearing the enormous expenses of this prolonged journey, in order that he might be once more advanced for the suffrages of the people, they thereby reaping a rich harvest in jobbing schemes for which the country at large would have to pay. Whether or no this view was correct is not known; but the shameless corruption displayed by those in high places about him while President—his most trusted friends—would certainly give color to the idea.

At last he returned. The triumphal march across the continent; the brilliant receptions tendered him; the enthusiasm displayed at every stopping place, are of so recent date and have been so widely published that it is waste of time and space to advert to them here.

But the Grant "boom" was once more started, and with increased vigor.

In the meantime the face of the political field had somewhat changed. Maine had apparently gone Republican with large gains. This was the Blaine "boom." Ohio had gone Republican with large gains, and this was the Sherman "boom." Since then, owing to local divisions, New York has gone Republican with large gains, and this is the Conkling "boom."

At this juncture the Atlanta *Constitution*, rightly regarded as one of the leading journals of the South, appeared with a suggestion that the South should take up Grant and support him for President. At first it received but little attention—it was greeted with a smile; but soon it began to receive serious consideration. Strong men of the South have begun to view it with favor. They say: "If we nominate Grant all excuse for waving the 'bloody shirt" is done away with—the cry of sectionalism is gone forever. What we want is peace and prosperity. We are tired of fighting a partisan fight wherein we get worsted every time."

This feeling has been spreading silently, surely. Leading Southern generals, if report is true, have become infected with the idea, and if so where will it end?

There is no doubt but that General Toombs is correct in his expression. If the South does extend the nomination to Grant he will certainly be elected, and if elected, the Empire. The love for the old Republic is slowly fading out. There is an inherent love of rank in nearly every human breast. Our young women are captivated with titled foreigners. Our young men would pay assiduous court to daughters of trans-Atlantic noble houses would the heads permit—and in many cases wealth overpowers even the claims of blood.

There is another class who care little for the Republic. A life lease of power around and behind the Throne would have far greater attraction, far stronger temptation, than the vicissitudes of a quadrennial election could afford. They might not care for the rank, so that the power and the accompanying wealth were theirs. A four years' tour of statesmanship is too short a lease for them.

France was a Republic. Louis Napoleon Bonaparte was its President. In one short night the Republic crumbled away and the Empire stood proudly on its ruins. It might be said that such a thing could not happen in the United States. We none of us know.

Then, as between the Republic and the Empire, it behooves the South and the Democratic party to make its choice—Grant and the Empire, or Bayard and the Republic.

We prefer the latter.

Let sectionalism stand for what it is worth. The South is gaining ground in manufactures and agriculture. Congressional legislation cannot now hurt us. We are rid of carpet-bag legislators, although we still feel the effects of their labors. The South is fast rising from its ashes, and another decade will see it glorious.

The Maine Election Imbroglio.

Baltimore Sun.

The reports from Maine are too conflicting and too partisan in character for any just conclusions as to be founded upon them. The substance of the allegations, however, are to the effect that Governor Garcelon, who was elected last winter by a coalition of Democrats and Republicans, in order to keep out the greenback nominee, has conspired, with his council, a majority of whom are Democrats, to act as a returning board, revise the votes cast at the last election so as to throw out a number of Republican Senators and Representatives returned elected, and thus secure the re-election of Garcelon by the legislative caucus. There are frauds in voting charged against the Republicans in the late election, and countercharges of intended fraud made against the Governor and council in the official canvass soon to be made. Certainly the state of affairs is not pleasant to contemplate, no matter how viewed. Doubtless there is both exaggeration and sensation in all the reports, as according to advices this morning all parties will have an opportunity to see the returns at the examination. But, as the Philadelphia *Evening Telegraph*, a Republican journal, suggests, even if the Governor and council of Maine should be contemplating the disreputable line of conduct of which their opponents accuse them, of which there is simply no evidence at all so far,they are "simply about to transfer to a Northern State a line of policy which a few years ago was pursued with most distinguished success in certain Southern States by cliques of Northern adventurers popularly known as carpet-baggers." It is a case of chickens coming home to roost. Exactly what the Governor and his council in Maine are charged with proposing to do, stealing a Legislature first and then a Governor is what has been often done in the Southern States since the war. A partisan majority in the United States Senate was for years sustained by means of stolen Legislatures, who sent up men to misrepresent their constituencies and disgrace the honorable body upon which they had been forced by these disreputable methods.

The plan is not a new one. It was not invented either by Democrats or Greenbackers. As the *Evening Telegraph* remarks, "It had its being in the rather too active brain of an unscrupulous Republican, and, while it was put in execution by Republicans only, the majority of Republicans regarded it as an unmixed political good." The mischief—the unmixed evil—of all these practices is, that when one party resorts to them it founds a precedent which their political opponents may take a notion to follow, and it is much easier for parties to imitate bad examples than good ones. In some sections of the country the Democratic party seems to think itself bound to pick up the cast-off financial follies of the Republicans, simply because the latter were originally guilty of them. So the outrages practiced by the returning boards of Louisiana, Florida and South Carolina might seem to suggest in the most natural way to the Governor and council of Maine that they, too, could convert themselves into a returning board. The other boards were crowned with honor and loaded with offices by their party. Why might not this board earn laurels and substantial things in the same way? It is quite as easy to count out votes of one class as of another—to disfranchise Republican districts as Democratic districts. Fraud is a game which is always open for two to play at, and therefore it can never, under any circumstances, be either safe or profitable for any political party to practice it. The Maine plan, if it really be contemplated at all by methods which are outside of law and justice, will be as shameless and as infamous as the Louisiana plan or the Florida plan, or as the plan by which Mr. Tilden was juggled out of his undoubted large majority of electoral votes. It cannot be worse or more shameless than these plans—that is if anything wrong be at all contemplated. It is not proper to assume in advance that there is, but if so, it is conceived and must be executed upon the basis of the example set in the unfortunate States of the South, under the patronage and with the approval of those who upheld the regime of the carpet-bagger.

A World of Good.

One of the most popular medicines now before the American public, is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whiskey drink. It is more like the old-fashioned bone set tea that has done a world of good. If you don't feel just right, try Hop Bitters.—*Nunda News.*

Practical Economy.

Before Patapsco Baking Powder was patented and placed on the market consumers had to pay 50 cents per pound for the old rut powders. You can now buy Patapsco for about one-half that amount and get a better article. This accounts for the popularity of Patapsco.

A FORTUNE QUICKLY MADE.

MONEY has been made more rapidly within the last few months in Wall St. than at any period since 1873. Immense profits have been realized from small investments. The following affidavit explains itself:

Personally appeared before me, a Notary Public in and for the City of New York, duly commissioned and qualified, Geo. A. Payne, who, being duly sworn, says that on an investment of $25 placed with Thatcher, Belmont & Co., Bankers, 2 Wall St., New York City, to me known, and on

POLITICAL NOTES.

Philadelphia *North American*, Republican: "The Grant boom is getting tired, but the Blaine boom isn't."

General Butler's printing expenses in the last canvass were about $18,000, and his postage stamps cost nearly $4,000.

The majority for Governor Smith, of Wisconsin, is over twenty-five thousand, and is the largest ever given any candidate in that State.

The Columbia (S. C., *Register*, Democrat says that the extra session of last spring was a great mistake of party policy on the part of the Democrats.

The Augusta (Ga.), *Constitutionalist* says the Chicago *Times* makes a very great mistake in stating that it had expressed a preference for Grant over Tilden. The *Constitutionalist* declares that "out of about one hundred and thirty Democratic newspapers published in Georgia, there is not one that would touch Grant with a forty-foot pole."

The Troy (N. Y.) *Press*, which has hoisted ex-Governor Tilden's name for President in 1880 subject to the determination of the Presidential convention, speaks thus decidedly: "We say, no compromise or consultation with bolters. Starve them out or drive them from the party, no matter what the results. The Democratic party cannot afford to place itself at the beck and call of Tammany Hall."

INDUSTRIAL ITEMS.

About a dozen Russian cotton manufacturers have lately gone to Egypt to buy raw material and to hire all the largest plantations on the banks of the Nile.

The average monthly requirements of the flour trade in New Orleans for local consumption and export are 60,000 barrels of all grades.

The boiler makers of St. Louis have formed an organization and will demand an advance of ten or fifteen per cent. in their wages this week.

The Minnesota wheat crop of 1879, as reported by the State statistician, amounts to 28,938,446 bushels, of which it is said that home consumption and seeding will require 7,500,000 bushels, and that the mills of that State will use 16,000,000 busnels.

The Pacific Mills, of Lawrence, Mass., have bought 2,000,000 pounds of wool in England during the last sixty days, which is now worth five cents a pound more than they paid for it, showing a profit of $100,000 on the transaction.

The boot and shoe buyers are going to Boston fast. There are now about seventy of them there. Those who have recently visited the West to obtain orders generally obtained advances with little difficulty, and they report dealers as being very lightly stocked, and as having no goods carried over for next spring.

Never, says the Atlanta *Constitution*, since the South was settled, has there been such uneasiness and activity in her railroad circles as at the present. Never was there such gigantic moves being made and contemplated. The problem that is agitating the magnates is the securing of lines from the West to the South Atlantic coast.

What they Say.

Rev. J. E. Rankin, D. D., of Washington, D. C., certifies of Warner's Safe Kidney and Liver Cure: "I do not doubt that it has great virtue." Rev. C. A. Harvey, D. D., Secretary of Howard University, certifies that for Bright's disease "no other remedy can be held for one moment in comparison with this." E. W. Neff, of Detroit, Mich., certifies that it completely cured him of a very serious chronic liver complaint. J. H. Sherlock, of Rochester, N. Y., certifies that it cured him of Bright's disease of several years' standing, and that he believes it to be the most valuable remedy ever discovered. These are samples of hundreds of other testimonials.

Cuticura

FROM THE HON. WM. TAYLOR, STATE SENATOR OF MASSACHUSETTS.

MESSRS. WEEKS & POTTER: Gentlemen,—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. ——— (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians and among them Dr. ———, of East Boston, and Dr. ———, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.20 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used, but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persevered on me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at the present moment, after three months' use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounce my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA and it would cure them. This is why I am so grateful to you, for I believe it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT.

WILLIAM TAYLOR.

BOSTON, Aug. 22, 1878.

CUTICURA REMEDIES.

CUTICURA RESOLVENT is the most powerful Blood Purifier and Liver Stimulant ever compounded.

CUTICURA is the great external remedy for all Humors of the Scalp and Skin, Ulcers and Old Sores.

TUTT'S PILLS

SYMPTOMS OF A

TORPID LIVER.

Loss of Appetite, Bowels costive, Pain in the Head, with a dull sensation in the back part, Pain under the shoulderblade, fullness after eating, with a disinclination to exertion of body or mind, Irritability of temper, Low spirits, with a feeling of having neglected some duty, Weariness, Dizziness, Fluttering at the Heart, Dots before the eyes, Yellow Skin, Headache generally over the right eye, Restlessness with fitful dreams, highly colored Urine.

IF THESE WARNINGS ARE UNHEEDED, SERIOUS DISEASES WILL SOON BE DEVELOPED.

TUTT'S PILLS are especially adapted to such cases, one dose effects such a change of feeling as to astonish the sufferer.

CONSTIPATION.

Only with regularity of the bowels can perfect wealth be enjoyed. If the constipation is of recent date, a single dose of TUTT'S PILLS will suffice, but if it has become habitual, one pill should be taken every night, gradually lessening the frequency of the dose until a regular daily movement is obtained, which will soon follow.

Dr. I. Guy Lewis, Fulton, Ark., says: "After a practice of 25 years, I pronounce TUTT'S PILLS the best anti-bilious medicine ever made."

Rev. F. R. Osgood, New York, says: "I have had Dyspepsia, Weak Stomach and Nervousness. I never had any medicine to do me so much good as TUTT'S PILLS. They are as good as represented."

LOCAL BRIEFS.

—No northern mail last night.

—Thanksgiving to-morrow.

—The "Midgets" at Tucker Hall to-night.

—Cotton: Middling 11⅛. Receipts 307 bales.

—Internal revenue receipts yesterday, $648.16.

—D. R. Goodloe, Esq., of Warrenton, is in the city.

—Mr. J. Abner Harrell, of the Weldon *Railroad Ticket*, was in town yesterday.

—Jacob S. Allen & Company want ten carpenters for work at Wake Forest College.

—Only one case of drunk and down before the Mayor yesterday morning—chronic, at that.

—The Catholic fair and festival at Metropolitan Hall affords a fund of rational amusement.

—In another column will be found the official notice of the Mayor regarding Thanksgiving Day.

—An intelligent colored boy wants employment. He is a good cook and is handy. Apply at this office.

—Colonel J. M. Robinson, president of the Raleigh & Gaston Railroad, left on yesterday for Wilmington *via* Hamlet.

—James A. O'Neill, of Henderson, wants a blacksmith and also a wheelwright, to whom steady employment will be given.

—The train on the Raleigh & Augusta Road on yesterday, due here at 8:40 P. M., did not reach our city until nearly 10 o'clock.

—In order to accommodate the children the "Midgets" will hold a matinee at Tucker Hall to-morrow morning, lasting from 10 o'clock till 12.

—The Rev. L. S. Burkhead, presiding elder of the Wilmington District, is in Raleigh with his family, taking a short respite from his labors.

—The enterprising firm of Redford & Arendell are out with a new advertisement this morning. They invite the attention of farmers and planters.

—Those interested should remember that the concert to be given by the Sabbath school of the Person Street M. E. Church will come off Friday evening.

—The regular semi-monthly meeting of St. John's Guild will be held at the reading room at 8 o'clock to-morrow night, instead of to-night. A full meeting is desired.

—By reference to our advertising columns it will be seen that 1,280 acres of valuable turpentine land will be sold by auction in Moore county on the 23d of December next.

—The market tower clock steadily forgot to strike the hours yesterday, and those who gauge the number of their drams by the strokes of the bell thought it was "a long time between drinks."

—The Rev. N. M. Jurney has returned from New York city, and is temporarily stopping in the city. He will attend the Conference at Wilson, and will furnish the NEWS with accurate reports of the proceedings of that body.

—The "Midgets" hold a levee this afternoon, to which the inmates of the Deaf and Dumb Asylum are invited by courtesy of the manager. He holds that any entertainment should show a fitting regard for these unfortunates, and render them all pleasure possible.

—Mr. George Warnecke, chemist, lately attached to Professor Ledoux's experimental station at Chapel Hill, sails from Baltimore in the steamer "Leipsic" for Prussia to-morrow, to remain till next June. Mr. Warnecke is highly rated for his accomplishments, and is considered a most excellent chemist.

—According to Professor Proctor the meteoric display takes place to-morrow morning between 1 and 3 o'clock. Everyone enjoyed Professor Tice's display—that is, the young folk; but if Professor Proctor disappoints the people there will be some "cussing," as it is too cold weather to make love out of doors.

Special Service Thanksgiving Day.

Rev. A. E. Owen will occupy the pulpit of Dr. Skinner at the First Baptist church, Thursday morning at 11 o'clock.

Old Mother Goose.

Go to Alfred Williams & Co.'s bookstore and see the new style "Mother Goose with magical changes." Also a great many new toy books for the little folks.

Cotton.

The market here, as in New York, on yesterday fluctuated considerably. It advanced in New York 27 points, and then lost 4 points. Our market advanced from 11¼ and 11⅜ to 11⅝, at which it closed. The receipts here continue heavy.

A Thanksgiving "Snack."

Mr. W. S. Moore, of Greensboro, shipped a lot of handsome apples to Messrs. Stronach & Belo, of this city. This shipment he designates in his letter a "Thanksgiving Snack," and they certainly will grace any table whereon they may be placed to-morrow.

The Revival at Swain Street Church.

Every day and every night the interest increases in the meeting at Swain street Baptist church. Rev. Mr. Owen, the evangelist, who is aiding the pastor, preaches with power and pathos seldom heard. The service begins every night at 7, and prayer meeting every afternoon at 3½ o'clock.

Over Four Score.

On Friday next Charles H. Dewey, Esq., president of the Raleigh National Bank, will have reached the eighty-first year of his life. Living beyond man's allotted time, he is still hale and hearty with a fair prospect of enjoying earth's blessings for some time to come. With kind friends surrounding him, with the consciousness of having acted well his part, when the final ending comes he may say with William, "Lord, keep my memory ever green."

Dime Party To-Night.

The Ladies' Home Missionary Society of the First Presbyterian church will have a dime party to-night in the lecture room of that church, the entire proceeds of which will be devoted to aid in building a Presbyterian church in the town of Wilson, N. C.

As the cause to which these ladies are giving their time is so unselfish and of such pure beneveolence, and as such occasions have heretofore under their management been so enjoyable, it is to be hoped that a large sum may be realized.

The mile-end cotton sold by Yeargan, Petty Co., wrapped on black spools is manufactured by Messrs. John Clark, Jr. & Co., of Glasgow, Scotland, who employ over two thousand persons in making this one article. Few who look upon a spool of thread are aware of the immense capital, skill and enterprise necessary for its production.

The Circus.

There is nothing in which the youthful boy so much delights as the circus; but when he grows old, and suffers with a racking cough, and dreads the approach of Consumption, he takes Hall's Balsam as the only sure remedy for his ills.

Sporting Goods.

One of the finest displays in the city can be seen at J. C. Brewster's. Breech Loading Double Barrelled Guns and Rifles, etc., etc., etc., all of the latest and most improved patent. Fixed ammunition in great variety and abundance; also a fine assortment of side arms. Sportsmen will find it to their interest to give Brewster a call.

What Physicians at Home and Abroad Think of the Seven Springs Iron and Alum Mass.

In the treatment of Dyspepsia, Chlorosis, Anæmia, Nervous and Muscular Debility, Nervous and Sick Headache, Dysmenorrhœa, Menorrhagia, Amenorrhœa, diseases of the Kidneys and Bladder and such like organic or functional disturbances, I know of no remedy upon which I can rely with more certainty of satisfactory results than the "Seven Springs Mass."
W. F. BARR, M. D.,
Abingdon, Va.

I have found no one single remedy to yield such satisfactory results as the "Seven Springs Mass." In the treatment of Dyspepsia, Chronic Diarrhœa, Anamia, Chlorosis, and for Chronic Eczema, I find it invaluable, associated with appropriate topical treatment.
GEO. T. HARRISON, M. D.,
New York City.

From my experience with the "Iron and Alum Mass," I believe it will prove the best medicine we have in use, for chronic diseases.
G. M. D. PATTERSON, M. D.,
Eaglewood, Texas.

For Dyspepsia, Ulcerations of the Throat, Inflammation of the Neck of the Bladder, Leucorrhœa, etc., the "Seven Springs Mass" seems to act with almost specific effect.
E. O. GRIGSBY,
DeView, Ark.

We could extend this list into the thousands with such testimonials from physicians from every State in the Union, but these are sufficient to indicate its application. The reputation of the remedy is too widely known to waste words upon its character. In ordering from druggists always mention Seven Springs Mass. Price $1 per package or six for $5, sent by mail, postpaid.

Rev. Dr. Mangum, Prof. Univ. of N. C. Iconcur with Bishop Doggett in his estimate of the Vest Pocket Cure.

Rev. Drs. Jeter, Broaddus, Dickinson, Bapt. It is indorsed by the direct personal testimony of men of national fame and strictness of speech. It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well-known physicians, answer all doubt. It is beyond question, a wonderful therapeutical agent.—Editors Religious Herald, Va.

Chaplain Randolph Macon College, Va. Many cases of Dyspepsia within my knowledge have been cured by it. Cramps, Colics Headaches and all sorts of pains from indigestion yield promptly to it. The cures of this sort are innumerable.

Rev. R. L. Dabney. LL. D., Col. Va.
It is highly esteemed here by the regular Medical Faculty and the people. It is excellent for indigestion and flatulent colic, sedative, soporific, tonic, slightly aperient, without nausea.

Rev. B. F. Woodward P. E., Va. Conf.
About twelve years I suffered from Dyspepsia. Failing in with this remedy, I gave it a fair trial. After its use I could eat anything with impunity. I am sure I am indebted to this medicine for what of health and physical comfort I have had for the last sixteen years. I have known many since to be relieved by its use.

Rev. Robert W. Watts, A. M., Va.
I have used the mixture in my family for years, and have taken it for a Dyspepsia Colic, which threatened my life, and was cured, eating any diet without hurt. I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I ever knew. For prostration from Dyspepsia or Liver Disease it is invaluable.

J. D. Eggleston, M. D., Va.
It is a highly valuable remedy, and is more extensively used than any single article in the whole list of medicines, so far as I observed in my practice, for all the complaints in families from indigestion. I use it and recommend it.

Editor Richmond Christian Advocate.
This remedy is of tried virtue. I have seen Dyspepsia cured completely by it. It seems to be an antidote to our "National Disease." The ingredients are not kept by the apothecaries, and have been difficult to get.
